

WEASAND / BUNG RINGS, RING EXPANDER, AND RODDER

Jarvis Beef Weasand / Bung Rings, Sheep Weasand Rings, Ring Expander and Rodder - systems for sealing the esophagus and anus of slaughtered stock.

JARVIS

- Weasand / Bung Rings
 - Weasand rings are designed for sealing the esophagus of slaughtered beef.
 - Bung rings are designed for sealing the anus of slaughtered beef.
 - Sheep weasand rings are designed for sealing the esophagus of slaughtered sheep.
 - Made in the U.S.A. of natural latex.
 - Designed to withstand 400 PSI (27 bar) - eliminating the possibility of ring split.
 - Shipped in polysealed bags of 3000 or 5000 for optimum hygiene and convenience.
- Ring Expander
 - The ring expander is designed to load the rodder.
- Weasand Rodder
 - The weasand rodder is used for cleaning and subsequent sealing of the weasand on both beef and sheep.

CLEANER - STRONGER
